

REPORT

First World Meeting of School Masters

Held: Sunday, November 21, 2021

We send to the master, to all those who from far away accompanied us in this historic in this historical milestone, in which our intentions, coincidences and inspirations took shape and were embodied in this first meeting.

We began this journey that was transmitted from India, which in the words of Silo is: *"The beating heart of the world, the India, whose spiritual reserves have been a teaching and an answer for a world whose mind is sick"*.

We were connected with Masters in different languages, themes, projects and actions inspired by Silo's work, accompanied by the participation of new Masters, who joined us for the first time.

It is a historical milestone because it will mark a trend where seeing and recognizing each other will be a convergence of deep and unitive intentions. "The winds of great change are blowing".

All the School topics were covered, as well as the actions of the Masters towards the world, opening conditions to multiply on a large scale.

We ended with a young look from France and Guatemala, which reminds us: *"A lifestyle without asceticism has nothing to do with us and we do not consider it interesting from the School's point of view"*.

We made history, it is the first of many future meetings. We were ready and willing to consolidate this worldwide space of exchange.

"As a projection powder, our actions and intentions
will illuminate a new dawn with new Masters".

Long live the School!

A big hug to all those who accompanied us with their presence and contributions.

We will meet again next year!

Technical Team Report

The technical team, composed of masters from various countries, provided coverage for 614 registered masters. We worked with 3 zooms, different languages and themes in rooms.

There were 50 small exchange rooms in the main zoom, but due to a technical problem only 24 were used.

Also, as a way to solve the problem, an additional zoom was made available, where 5 exchange rooms were created. In the second half of the meeting, new exchange rooms were implemented exchange rooms where the participants were able to enter without difficulty. There was also an additional zoom to deal with the topic "The register of being masters and the register of the whole (decentralized) School".

After the welcome, an additional zoom-in was available to discuss the topic "The role of the School in the world", with simultaneous translation from English to Spanish.

The following statistics are attached:

1. Enrolled by Parks:

Primer Encuentro Mundial de Maestros de Escuela	
Inscripciones	
Parques *	Inscritos
Aldama	7
Aloasí	7
Attigliano	23
Carcaraña	8
Casa Giorgi	1
Caucaia	13
Chaco	8
Chaka	4
Chapadmalal	13
Colmenar	6
Colonia Perfección	1
Del Desierto	1
El Istmo	28
El Remanso	6
Gran Canaria	6
Guatemala	1
Hudson Valley	1
Igarassu	4
Ihuanco	9
Joquicingo	5

* What was written by each Master when registering was respected.

About the website www.silo.ws

A web site was developed with the description and invitation to this First Encounter. Initially in six languages and now seven.

Numerous flyers were made and included in the web site and used as dissemination and invitations on social networks.

The website served as a source of information and registration for the meeting, as well as containing the Program and the index of rooms and exchange topics. In this way, the Masters of the world had a unique and easy-to-access virtual place, independent of networks and groups, where they could get information and register. They were also able to send queries and suggestions.

Currently the material of the First Meeting has been moved to a specific menu, where it can be consulted as an archive. The website is now undergoing a transformation, to facilitate some tasks and tools in this worldwide global exchange environment that is being consolidated. Once registered, the Masters will be able to access to various services. For example: links to numerous exchange groups, contact with each other, publish articles or productions and will be adding functions as needed.

As far as possible, materials and guides will be maintained in several languages, although the main languages will be English and Spanish because they facilitate the use of the site.

English and Spanish will be the main ones because they facilitate translations.

Connection Group: Juan Carlos Dominguez, Susana Lucero, Michel Darracq, Alejandro Valenzuela, Francisco Becerra, Gabriel Gómez Fiori.

Collaborators: Natalia Ibáñez, Víctor Valencia and Federico Palumbo.

Translators: Antonio Carvallo, Stella Dante, Liana Morães and Ricardo Marcianessi.

Plus the participation of Masters from all over the world who contributed valuable suggestions to optimize the organization.

Thank you very much!
